zzhan236@asu.edu   480-729-5641   1130 East Orange ST, Tempe, AZ. 85281

EDUCATION:

Southeast University   Nanjing, China
BE, Software Engineering   *Aug '11 - Jun '15*
GPA: 3.36 Coursework in Computer Science, Programming, Information System

Arizona State University   Tempe, AZ
MS, Computer Science   *Aug '15 -*
Coursework in AI, Game Theory, Pattern Recognition

EXPERIENCE:

Research Assistant, Lab of Computer Graphics, SEU   *12/2013 - 06/2015*

I work in lab of Computer Graphics of the School of Software Engineering in the last two years of my undergraduate study, during which I took part in some research works about image processing and some applications in human-computer interaction.

Front-end Developer, WindWalk entrepreneur team   10*/2013 - 02/2015*

I was invited by a entrepreneur team in SEU, which had won national investment in China, to design and develop a front-end of their App based on Android. I completed all the design and implementation work in 5 months and the final version was released as the beta version.

Team leader, IBM Mainframe Technology and Skills Application 2013 National Campus Contest
Team Competition   06*/2013 - 11/2013*

In this contest we build a application based on Android and Mainframe of IBM. We build our front-end on Android phone and run the server on Mainframe. We construct a payment App similar to Paypal. I wrote most Android code and was responsible for controlling the process. Finally we won the 3'rd prize.

Intern of R&D, Transmission Technology Corp, Shanghai   06*/2014 - 01/2015*

During the intern program of my school, I was hired by a video game company in Shanghai, In this company I worked as software developer and took part in programs involves in game optimizing and developing interface of digital payment.
